

K-12 Teachers Alliance Featured Presenter:

# Marilee Sprenger

## Presentation Topics

- BRAIN-BASED LEARNING
- DIFFERENTIATED INSTRUCTION

## Biography

Marilee Sprenger is an expert in education on the brain, learning and memory, and differentiation. She is one of the most entertaining, informative authors and speakers in the field. She leaves her audiences with practical techniques to implement in their classrooms immediately.

As a former classroom teacher, Sprenger knows the demands of the classroom, which informs her study of how the brain learns. She makes this complex topic easy for teachers to understand and apply to their instructional strategies.

Sprenger is a member of the American Academy of Neurology, the Learning and Brain Society, and the Cognitive Neuroscience Society, as well as the education organizations ASCD and Phi Delta Kappa. She regularly contributes to education journals and textbooks, in addition to publishing 8 books on brain-based learning. With this research and teaching experience, she is a seasoned, well qualified speaker who can help your teachers maximize achievement.
